Opis produktu

The V-Space Series $\frac{3}{4}$ " and 1" female globe valves complete Toro's range of residential and commercial valves. Its small footprint and hydraulic performance make this valve unique in its category and the ideal choice for residential use. With V-Space you have more space for easy installation and maintenance.

- Flow Rate from 1.2 to 7.2 m³/h (20 l/min). Optional flow control. Immediate flow adjustment with universal key for 6 mm Allen pin.
- Innovative features such as a two-step filtering labyrinth
- Quick installation and maintenance. Easy access with just 4 screws.
- Slow closing, anti-water hammer
